**DEALERSHIP PROPOSAL**

I sincerely believe that the Meka Dealership Program—**which is based on quality products, an honest and sharing organization, and the power of solidarity**—will become a significant reference point in the historical development of our companies.

**Mehmet KAYBAL**

MEKA Chairman of the Board

# WHO IS MEKA?

Meka is a machinery and plant manufacturer that is highly preferred by professionals in the aggregate and concrete production industry.

With more than 2000 plants established in over 65 countries on 5 continents, we contribute to building a better world.

## ***In the Field of Aggregate Production and Mining:***

We produce cone, impact, jaw, tertiary and secondary crushers, as well as screens, washers, stationary and mobile crushing and screening plants, and all types of plant equipment.

## ***In the Field of Ready-Mixed Concrete:***

We produce all types of plant equipment, such as concrete recycling system, fiber dosing systems and concrete mixers, as well as stationary, mobile and compact concrete plants.

# JOIN FORCES WITH US, SO THAT WE CAN ALL BECOME STRONGER

Until now, we have produced concrete plants or crushing & screening plants for several internationally recognized projects serving for aggregate and concrete production industries, and we gained invaluable experiences from these projects. Meka products were used in several international projects such as Heathrow Airport expansion (England), Hinkley Point C (England) and

Kursk (Russia) Nuclear Power Stations, and the Third Airport in Istanbul (Turkey).

We use production processes that meet globally accepted quality norms to produce machineries/plants that comply with these same norms. Thanks to our annual production capacity of 250 plants, we are one of the leading producers in Europe

***In the period between 2017 and 2020, demand for ready mixed concrete and aggregate production will increase globally, which will result in a huge boost to our industry. During this period that holds great opportunities, we seek to strong partners like yourself, so that our products developed through our perfectionist approach and processes can reach broader markets. We believe in the products we produce, in the partners we have in our sales network, and in the services we offer to our customers; and we believe that we will be stronger together.***

*In the period between 2017 and 2020, demand for ready mixed concrete and aggregate production will increase globally, which will result in a huge boost to our industry.*

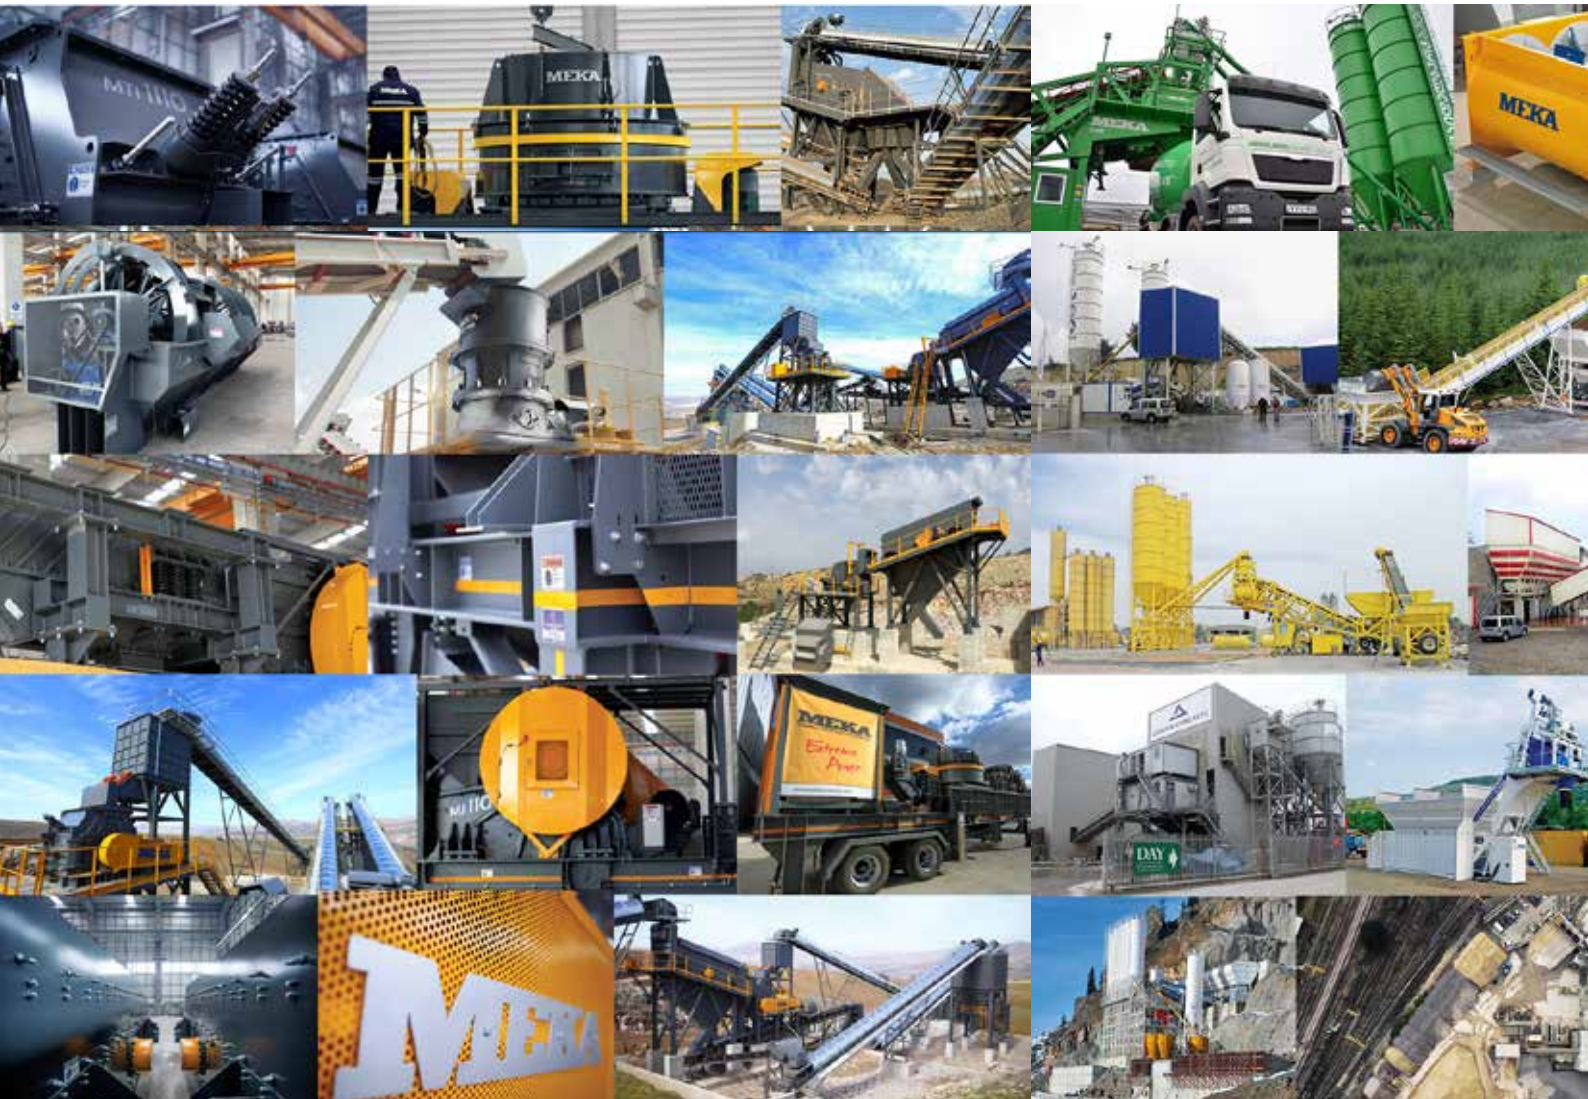

# SELLING MEKA PRODUCTS IS A PRESTIGE.

## BECAUSE:

We have a large range of products that meet all types of machinery and plant-related needs in the areas of crushing, screening and concrete plants, which have been our exclusive areas of focus for several years. Hence, you can find complete solutions from a single one supplier, which will help increase customer satisfaction and service value.

Furthermore, Meka is highly experienced in customized manufacturing. We have more than thirty specialized R&D / project engineers who can find the best solution for your unique machinery and equipment needs in the areas of crushing & screening and concrete plants.

*We embrace a corporate philosophy of quality-oriented production and customer satisfaction-oriented services.*

# WORKING WITH US MEANS GREATER REVENUES.

## **BECAUSE:**

By becoming part of our sales/service network for our high class products, which have significant price advantage over rival companies, will not only result in higher revenues, but will also increase the yield of your marketing activities.

The location of our production plants provides us with advantages for product shipment by sea, air and land. We also offer advantageous prices

compared to international rivals, thanks to our effective production management and the extensive state support we receive.

We adopted a flexible production model. We are not only experienced in custom design and production, but we also are competitive thanks to our price advantage.

*We provide supplies to world's best companies, such as Lafarge, Holcim, Heidelberg Cement, Kolin, and Hotchief.*

# WORKING WITH MEKA WILL PROVE A POSITIVE EXPERIENCE.

## **BECAUSE:**

Our partners in our sales network and their customers are at the center of all of our activities. When we sell a crusher, screen or plant, we also seek to provide an excellent business experience. We do our best so that we can hear from all customers and sellers the following words, which we already hear from many customers:

***Why haven't we discovered you before?***

*We are not working to become the largest company;  
we are just trying to do our work the best way we can.*

# MEKA DEALER PARTNERSHIP WILL BRING YOU SUCCESS.

By becoming part of the sales and service solution partnership network of Meka – a company which produces machinery and plants for globally growing construction and mining sector – you can:

- ***Sell Meka brand products in your country and region;***
- ***Offer service for Meka brand facility and machinery in your country and region;***
- ***Both sell and offer services for Meka brand products.***

Meka makes effective use of the digital media, and possesses a strong marketing archive that includes various marketing items, from miscellaneous advertisement materials and bulletins to catalogues, and exhibition activities to mailing works. Meka also shares this archive with the partners in its sales/service network. Hence, you will no longer have to allocate a special budget or time to prepare designs for your marketing activities, which can often constitute a significant cost.

Meka Dealership Program:  
Fulcrum of your organization

**“Give me a fulcrum,  
and I shall move the  
world.”**
